

# PORIN IS YOUR HOME

## Don't wait for others to clean it.

You live here and it is your home now. If cigarette butts are on the floor, if the garbage bins are filled with waste food, if the walking paths are filled with snow and ice, it is you who will live in it. Be conscious, come forward and help Porin administration and other organizations in cleaning your home.

Set a good impression on guests and be an examples to your friends and newcomers. You can ask for a vacuum cleaner, brooms and other cleaning material to clean your space.
